

Inquiring General Contractor:

Following is a brief history of WCS Contractors, Ltd. (WCS) *formerly Wilson Plastering, Inc.* established in 1959.

WCS specializes in commercial drywall & acoustics, EIFS, lath & plaster and sprayed-on fireproofing. We also specialize in the design, engineering and prefabrication of exterior panel systems that include EIFS, tile & brick finishes.

We have completed government projects that include military, VA and HUD. Other sectors include medical, correctional, educational, religious, retail, hotel and office. A few higher profile projects we have subcontracted include Lincoln Center in San Antonio and II Commodore Plaza in Austin. We also subcontracted the Crawford, Texas residence of President George W. Bush. Although we no longer work outside of Texas, we have successfully completed projects in New Mexico, Oklahoma, North Carolina, South Carolina, Ohio and Louisiana.

WCS is fully insured and bondable and is among an elite group of subcontractors who do not have EIFS exclusions in their general liability policies. Consequently, we are able to provide adequate EIFS coverage thereby limiting our General Contractors' exposure. Of many contractors, only a select few have the honorable distinction of being an **EIFSmart** contractor. The classification requires extensive training and an increased ratio of supervision to work force. WCS Contractors, Ltd. is an **EIFSmart** contractor.

Thank you for considering us to become part of your construction team.

Sincerely,

A handwritten signature in black ink that reads 'Bob McGowan'.

Bob McGowan
Vice President
