Re: Wachovia Financial Center @ 2851 S. Ridge, McKinney TX

I wanted to notify you that I really enjoyed working with your company on the above project. This was our first project for a new client in the local market and it was very important that we complete this project on time and with attention to detail. With the help of Tim Clark and Victor H. Carreon we finished the project and had a very happy client.

The professional attitude shown by both Tim and Victor and their dedication to giving us a quality product ensured a successful project.

We look forward to working together on upcoming projects, where I'm sure your company will again work with us with the 'Team' attitude that you displayed on this job.

Thanks Again,

Marty Dale
Superintendent
