Re: Central Texas Marketplace

Dear Mr. McGowan,

Please let this letter serve as a formal thank you for the great job done by WCS Contractors at Central Texas Marketplace, a 500,000 sq. ft. retail power center located in Waco, Texas. The office management and field supervision of WCS Contractors were both great to work with. WCS was very successful at managing the daily changes associated with this job, and they were always willing to put forth the extra effort required to make the project a success.

Again, it was a pleasure working with you and I look forward to future work together.

Sincerely,

Leon Davis
Project Manager
